PROFESSIONAL SUMMARY

.NET Full Stack Developer with 1.5+ years of experience building enterprise web applications with ASP.NET Core (.NET 8), C#, React.js, and SQL Server. Delivered 4 core modules and 25+ REST APIs for an HRM platform used by 150+ employees, applying Clean Architecture and CQRS (MediatR). Promoted from Intern to Junior .NET Developer in 6 months, then to Full Stack Developer. Experienced with Entity Framework Core, Telerik Reporting, secure role-based authorization, and n8n workflow automation with AI agents. Proficient with AI-assisted development tools (ChatGPT, GitHub Copilot, Claude) for coding, debugging, testing, and documentation. Seeking a backend or full-stack .NET role (remote or on-site) to ship reliable, scalable software.

TECHNICAL SKILLS

Backend: C#, .NET 8 / .NET Core, ASP.NET Core Web API, RESTful APIs, Entity Framework Core (Code-First, Migrations), LINQ, MediatR, JWT Authentication, ASP.NET Identity, Role-Based Authorization

Frontend: React.js, TypeScript, JavaScript (ES6+), Blazor, MudBlazor, Radzen, Telerik UI, HTML5, CSS3, Bootstrap, Tailwind CSS

Databases: SQL Server, T-SQL, MySQL, PostgreSQL

Architecture: Clean Architecture, CQRS, SOLID Principles, Microservices (fundamentals)

DevOps & Tools: Git, GitHub, GitHub Actions (CI/CD), Docker, Postman, Swagger/OpenAPI, Cypress, Telerik Reporting, Agile

Automation & AI: n8n Workflow & Task Automation, Webhooks, AI Agents (Groq, GenAI APIs), Prompt Engineering, API Integration

AI Dev Tools: ChatGPT, GitHub Copilot, Claude (AI-assisted coding, debugging, code review, query optimization, documentation)

PROFESSIONAL EXPERIENCE

.NET Full Stack Developer | TechtaGone Technologies, Islamabad, Pakistan — Feb 2025 – Apr 2026

Career progression: Intern (Aug 2024) to Junior .NET Developer (Feb 2025) to Full Stack Developer

- Designed and delivered 4 core modules (Employee Management, Attendance, Leave, Payroll) for SmartCorp HRM, an enterprise HR platform used company-wide by 150+ employees, applying Clean Architecture and MediatR (CQRS) for long-term maintainability.
- Built and maintained 25+ RESTful APIs on ASP.NET Core and SQL Server using Entity Framework Core (Code-First); managed 40+ schema migrations with zero production rollbacks.
- Implemented secure authentication and role-based authorization protecting sensitive HR and payroll data for 150+ employee records, with zero reported security incidents.
- Automated payroll and business-analytics reporting with Telerik Reporting, cutting manual reporting effort for HR and finance teams by an estimated 60–70%.
- Developed MyWall, an employee engagement module (social feed, posts, comments, anonymous requests), contributing to an estimated 20% increase in internal communication participation.
- Built responsive internal UIs with MudBlazor, Radzen, HTML, and CSS, supporting daily use by 150+ users.
- Used AI tools (ChatGPT, GitHub Copilot) in daily development for debugging, code review, query optimization, and technical documentation, speeding up feature delivery.
- Worked directly with clients to translate business requirements into technical specifications and owned end-to-end module delivery.

SmartPay: Payroll System | Internship Project | ASP.NET Core, C#, EF Core — Sep 2024 – Feb 2025

- Developed core backend features and resolved 20+ bugs; added input and file-size validation rules that reduced data-entry errors and improved API reliability.

PROJECTS

Plagiarism Checker System | Final Year Project | ASP.NET Core Web API, React.js, Sentence Transformers

- Built a plagiarism-detection web app in a 3-member team using text embeddings for semantic similarity between documents; owned backend API development and the similarity-scoring logic.

AI-Powered Portfolio Chatbot | n8n Automation, Groq AI, React.js

- Built a conversational support chatbot using an n8n webhook workflow (AI Agent node + Groq LLM) and a custom React chat widget that calls the workflow from the front end.

Job Listings Automation Workflow | n8n, Google Sheets

- Built an n8n task-automation workflow that pulls current web development, IT, and teaching job listings and logs them automatically into Google Sheets, replacing manual searching through API integration.

EDUCATION

Bachelor of Science in Computer Science (BSCS) — Mar 2021 – Apr 2025

Pir Mehr Ali Shah Arid Agriculture University, Rawalpindi, Pakistan

CERTIFICATIONS & ACHIEVEMENTS

- React Essential Training – LinkedIn Learning (Jun 2026)
- Complete Generative AI: Build Pro Web, Mobile & SaaS Apps – Udemy (May 2026)
- Certificate of Work Appreciation – TechtaGone Technologies (Feb 2025)
- Winner, SQL Database Query Competition – BIIT, Rawalpindi (May 2023)
